

Interfaith Events in New York

Ananda Marga has been invited on the panel discussing with other leaders of different denominations the Holy Scriptures like the Bible, the Koran, the Veda, the Avesta, etc.

In all events Ananda Marga representatives Acarya Abhiraananda Avadhuta and Acarya Vimalashananda Avadhuta have presented the distinctive universal and scientific traits of Ananda Marga philosophy with much appreciation and participation from spiritual leaders and audience.

Those interfaith events are part of a global peace process that some international organization like HWPL and Gathering of Lights are promoting. The results are very encouraging as meetings and conferences force people to come together and share beyond the Scriptural texts.

Sometimes the sharing in the form of Spiritual Chants from all faiths and Spiritual Dances from all traditions which is a very enriching and uplifting process.

We thanks very much the organizers of HWPL and Gathering of Lights for being part of their events and we look forward for the coming ones.
