Year 2017 is the new beginning of a new era. Society is going through a lot of transformation and we should always keep in mind that only spiritual force and energy will give the right solution for the present situation

Bádhá sá yuśamáná shaktih sevyam sthápayati lakśye. [Obstacles are the helping forces that establish one in the goal.] We need moral force and collective spiritual endeavor in order to establish the glory of spirituality.

Fight against inertia! Break it to dust! Don't let your mind indulge in any low thought! This is real courage. This the path of the spiritual warrior. This is the beauty of selfless action.

The retreat facilities at Ananda Kanan are improving every year. The natural environment is most conducive for *sa'dhana'*. By enjoying together kiirtan, meditation and devotional programs, sharing and preparing delicious vegetarian food and participating to the programs organized for the event, we will surely feel enlightened and close with Baba – to that love that brings us together as a universal family.
